## ACADEMIC PROJECTS

- ❖ [Admission management website for tier 3 collages](#)

All the colleges cannot spare their prize for their own website and online admission are really convenient. So this website can let multiple collages access our service and also let candidates/students to take admissions to respective collages from place of their comfort without actually physically visiting the collage.

- ❖ [Weather App](#)

While visiting a place and without checking any weather reports if someone wants to check the weather conditions of a certain place our website allows doing it by just entering the place name and you will have all the weather predictions and current weather conditions of the respective place of visit. This website is actually fun it lets you know the weather conditions and predictions of any places around the world.
